

FOR IMMEDIATE RELEASE.

CobbleSoft Partners with ODTUG

Rochester, New York Oct 1st 2002: CobbleSoft International Ltd. announced today that they have entered into a vendor partnership with the highly-acclaimed Oracle Development Tools User Group (ODTUG). At 2,900 members, with approximately 30 percent of them from countries outside the United States, ODTUG is one of the largest Oracle user groups in the world. An independent, not-for-profit organization, ODTUG aims to help developers deliver high-quality information systems.

CobbleSoft shares a common goal with ODTUG of promoting communication and collaboration within and between organizations. To that end, CobbleSoft will shortly be announcing the public release of COIGN™, a web-based, ticket-driven automated process management system. COIGN is designed and optimized exclusively for the Oracle® platform.

About CobbleSoft

CobbleSoft International Ltd. is a privately held corporation, headquartered in the Finger Lakes region of New York State. The founders have over 16 years experience specifically in Oracle database design and applications development, and many more developing and supporting applications around the world.
