

FOR IMMEDIATE RELEASE.

A Helping Hand for the Finger Lakes

Rochester, New York October 23rd 2002: With the incorporation of CobbleSoft International Ltd. in July of this year, Upstate New York and the Finger Lakes region have found another friend. CobbleSoft, an international software development company, has made it's home in Phelps, Ontario County, and plans to promote the region as part of it's marketing campaign around the world.

CobbleSoft is already casting a wide net. Scheduled to announce the public release of its flagship product in San Diego, CA, next week, they will be demonstrating COIGN at the Oracle Applications Users Group (OAUG) fall conference, October 27th – 30th. With attendees numbering regularly in the thousands, from across the US and around the world, CobbleSoft anticipates considerable exposure for the region.

CobbleSoft also recently entered into a vendor partnership with the acclaimed Oracle Development Tools User Group (ODTUG). With access to 3,000 Oracle professionals and their companies located in the US, Europe and around the globe, CobbleSoft is planning a considerable marketing campaign throughout the next year that will attract further attention.

About COIGN

COIGN rapidly enables enterprise-wise support processes including Help Desk, Trouble Tickets, Defect Tracking, Project Tasks and Sales Lead Management. By breaking the restrictive mold and operating requirements cast by more established products, COIGN allows corporations to use their existing infrastructure, thus reducing costs and realizing immediate benefits.

About CobbleSoft

CobbleSoft, a privately-held company, focuses exclusively on supporting enterprises that use Oracle Corporation's database servers and related technologies to run their business. The founders have over 16 years experience specifically in Oracle database design and applications development, and many more developing and supporting applications around the world.
